

Curriculum Vitae of new proposed member of the Board – Maria Koehler

Dr Maria Koehler, Ph.D., is a hematologist/oncologist with a successful academic career and more than 20 years of experience in both large, multinational pharmaceutical and biotechnology companies. Since late 2017, Maria has served as the Chief Medical Officer of a private biotech company, Bicycle Therapeutics. Previously, she was the VP of Strategy & Innovation for Pfizer Oncology, spearheading major acquisitions and strategic portfolio decisions within the Leadership Team. Before, as the Pfizer Oncology Integrated Development Leader, she was the brain behind the development of Ibrance, a >\$4B cancer medicine. Her professional background includes clinical work in Poland and Germany, associate professorship at the University of Pittsburgh, experience as Director of Bone Marrow Transplant at St. Christopher's Hospital in Philadelphia, executive positions at AstraZeneca, GSK and Pfizer, and postgraduate lectureship at Fudan University, Shanghai. She received her MD and PhD from the Silesian Medical School in Poland. She has co-authored more than 150 publications, book chapters and patents. Her advisory roles have included scientific and strategic support for NCI, ASCO, EORTC and Breast Cancer IMPAKT Scientific Boards, and the Breast Cancer Research Foundation. She has served as an Advisor to multiple biotech companies in USA, Europe and Asia as well as Venture companies. She is a member of multiple committees defining guidelines for treatment for patients with cancer.
